Bachelor of Science (B.Sc.), Computer Engineering, September 2019 — 2016 - 2019

EXPERIENCE

SALESFORCE — Madrid, Spain
Strategy & Operations Manager – Global Sales COO Office (2026) — 2024 - 2026
- Built a scenario model assessing paths to $60B+ in revenue by FY2030 for the Global Sales COO, combining revenue and attrition assumptions by product, customer segment, and customer AI maturity categories
- Led a 10-person team across Sales, Finance, and Recruiting to complete a headcount project stalled for six months, establishing governance and securing leadership buy-in to create a single data source for company-wide sales capacity reporting and planning

Strategy & Operations Senior Analyst – Global Sales COO Office (2024 - 2026)
- Redesigned annual go-to-market planning for ~15,000 sellers across 15 business units during a hiring surge, defining the execution strategy through headcount allocations and performance targets by seller type and market segment
- Defined sales forecasting processes and partnered with IT on tool implementation for a new company KPI measuring new annual contract value net of attrition, aligning its definition and targets with Finance to support revenue growth and customer retention
- Selected to manage two analysts within one month of joining as an individual contributor, taking over day-to-day supervision from senior leadership by setting priorities, reviewing deliverables, and coaching the team
- Prepared quarterly business review presentations and executive talking points for the Global Sales COO and EMEA Sales President, highlighting performance drivers and areas requiring leadership attention across global and EMEA sales
- Co-developed FY25 EMEA go-to-market strategy with the EMEA Sales COO, translating global priorities and growth objectives into country-level headcount allocations, operating-model changes, and financial targets

BOSTON CONSULTING GROUP (BCG) — Milan, Italy
Associate (2022 - 2024) — 2022 - 2024
- Conducted buy-side commercial due diligence for a European insurance group's completed €2B+ carve-out acquisition across three countries, analyzing market size and trends alongside estimating IT cost synergies with top-down and bottom-up methods
- Defined the future IT landscape and IT separation strategy for the insurer's three-country integration, assessing the acquired core insurance platform and leading workshops with 40+ participants to develop the implementation plan and budget
- Developed the technology integration strategy and budget for a media acquisition involving a Middle Eastern sovereign wealth fund, comparing capabilities, costs, and timelines to recommend the target systems setup for the combined company
- Developed a five-year roadmap to digitalize operations at a rail operator in the Caspian region, defining the future operating model and prioritizing technology initiatives by strategic and financial impact

Visiting Associate (2022)
- Built a cloud data-management business case for a Gulf national oil company, modeling usage and savings scenarios to support vendor renegotiation that reduced annual spend by 30%
